SUMMARY

I am a 4th-year Cloud Computing Engineering student, passionate about cloud technologies and IT. I have basic knowledge in cloud platforms, virtualization, and DevOps tools. I am motivated to learn, grow, and start my career by contributing to real projects and contribute effectively to innovative teams

FORMATION

2024 - 3rd year Computer Science - Private higher school of engineering and technology (ESPRIT)

2023 - Graduated with a Bachelor's degree in computer science specializing in software engineering - Higher Institute of Mathematics and Computer Science (ISIMM)

2020 - Science baccalaureate with fairly good honors - Lycée cite essalem Boumhah

EXPERIENCES

Development of an ERP system management module (.NET, BLAZOR, SQL Server)

01/06/2024-31/07/2024

Company "NISSAF"

- ERP project management
- Design and implementation
- Front and back end development of the site

Development of a Trash status management App (HTML, CSS, nodejs, MongoDB)

01/07/2024-31/08/2024

Company "Inova DE GU"

- Project management
- Design and implementation
- Front and back end development of the site

Development of mini application (HTML, CSS, JavaScript)

15/07/2024-15/08/2024

Company "Prodigy InfoTech"

- Development of a responsive landing page with an interactive navigation menu
- Development of a Responsive Stopwatch
- Development of a Tic-Tac-Toe App
- Development of a personal website portfolio
- Development of a weather App

Development of a web and mobile application (HTML, CSS, nodejs, CORDOVA, MongoDB)

07/02/2023-07/06/2023

Company "Chaaben Technology Group"

- Lost and Found Project Management (PFE)
- Design and implementation
- Front and back development of the site

Development of a web site E-Commerce (Laravel7, laragon)

11/06/2022-11/08/2022

French Company "GLOBLEU"

- E-Commerce project management
- Front and back development of the site
- Retouching and improving the site

ACADEMIC PROJECTS

Integrated project

- Creating the private cloud with OpenStack
- Creating a web application
- Deploying the application on the private cloud

Club management project in our University (pfa)

- Project and specifications management
- Specification, design and implementation of the project
- Team management of 4 members
- implementation of the project using the Agile Scrum method

Announcement management project in our University

- Project and specifications management
- Specification, design, prototype and implementation of the project
- Team management of 4 members

PIntegrated Project of 2 Applications

- Project and specifications management
- Specification, design, prototype and implementation of the project
- Team management of 6 members
- Development of a "lost and found" web application with Symfony and mysql
- "Lost and found" desktop application with JavaFX and mysql

Development of a Mobile Application

- Project and specifications management
- Specification, design and implementation of the project
- Team management of 4 members
- development of a "lost and found" Mobile application with FlutterFlow and firebase

"Social media" application with react and node js

Application of "Pathe Home" films with react, node js and the movie database API 3

Simple connectivity testing application with html, css, javascript, nodejs and mysql

COMPETANCES

- **Programming languages** : C , C# , Java , JavaScript , Python , R , PHP
- **Frameworks** : Laravel , React , Node js , Symfony , JavaFX, .NET , BLAZOR , Angular, Spring
- **Style languages** : HTML, CSS , XML
- **Database** : MySql , Oracle , MongoDB , Laragon , SQL Server
- **Operating systems** : Windows , Linux(Ubuntu), KaliLinux
- **DevOps**: Git , Docker, Kubernetes , Ansible , OpenStack
- **Development tools**: Android , FlutterFlow

CERTIFICATIONS

- **Kubernetes** , Enligne, Huawei,2024
- **Python** , Monastir, ISIMM,2020
- **UI/Ux Design**, Mahdia, ISIMA,2022
- **UI/Ux Design**, Monastir, ISIMM,2022

LANGUAGES

Arabic: kindergarten

French: B2

English: B2
